Please find below and/or attached an Office communication concerning this application or proceeding.

Serial Number: 10/073094

Applicant's response filed on 08/25/03 is considered as incomplete as applicant has failed to elect one of the grouped species and to include the list the claims that are readable on the elected species.

If applicant positively admits that the grouped species are not patentably distinct, the requirement for the election would be withdrawn. However, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) as being obvious variants.

Applicant is given a time period of one month from the mailing date of this notice to supply the correction in order to avoid abandonment.
